About me

MCA student with hands-on experience in Python, GIS, Flutter, and full-stack application development. Experienced in building real-world software through research internships, hackathons, and academic projects. Passionate about solving practical problems using modern technologies and continuously improving through learning and collaboration.

Education

Secondary Jhulelal trust school, Ulhasnagar 79%	Jun 2019 - Mar 2020
Higher Secondary H.R collage, Mumbai 80%	Aug 2021 - Mar 2022
Graduation (BCA) IBSAR, Belapur C.B.D Avg SGPA 8.2	Aug 2022 - Jun 2025
Post Graduation (MCA) Vivekanand Education Society (Information Technology), Chembur MCA	Aug 2025 - Present

Internships

Intern PPCRC, Pune	Jun 2024 - Aug 2024
- Developed GIS-based flood risk assessment workflows using Python and QGIS. - Applied Analytical Hierarchy Process (AHP) for multi-criteria spatial analysis. - Processed DEM, land use, river network and rainfall datasets. - Generated thematic flood susceptibility maps for disaster planning. - Contributed to technical documentation and GIS demonstrations during ISRO programs.	

ISRO Disaster Management Support Program (ISMP) Volunteer PPCRC, Pune

- Volunteered during the 7-day ISRO Disaster Management Support Program (ISMP).
- Prepared technical manuals and presentation material for participants.
- Assisted in GIS and disaster management demonstrations.
- Collaborated with researchers and technical experts during program

Hobbies

- Listening music
- Playing games
- Watching movies/series

Qualities

- Team work
- Punctual
- Time management
- Problem Solving
- Analytical Thinking

Certificates

Internship certificate

Aug 2024

Certificate of using GIS in python

Best speaker

May 2023

Collage competition

MS-OFFICE

Jul 2021

Efficient with Office tools

Aug 2021

Hackathons

Participated in multiple hackathons focused on AI, cybersecurity, software development, and innovative problem-solving.

Portfolio

activities.

Projects

AR VR Mobile Headset Experience System

- Developed a mobile-based Virtual Reality application using C# and Unity.
- Created immersive 3D environments with head-tracking and interactive navigation.
- Optimized the application for smooth performance on smartphone VR headsets.

FRZIT – Flood Risk Zone Identification Tool

- Developed a GIS-based flood risk assessment application using Python and QGIS.
- Performed slope, proximity, and interpolation analysis to identify flood-prone areas.
- Integrated OpenStreetMap data for locating nearby hospitals and emergency facilities
- QGIS, Python, Raster Analysis, AHP, Flood Risk Mapping.

CareSync – Smart Healthcare Management Application

- Built a Flutter + Firebase healthcare application with medicine reminders, patient records, and AI-assisted health features.
- Integrated Firebase Authentication and Firestore for secure cloud-based storage.
- Designed an intuitive mobile interface for patient management.

Technical Skills

- | | |
|---|---|
| ■ Languages: Python, Java, C, C++ | ■ Database: SQL, MongoDB, MySQL |
| ■ Tools: QGIS, MS Office , Cloud, DevOps, Git | ■ Frameworks: Flutter, FastAPI, Streamlit |
| ■ Web: HTML, CSS, JS , Node | ■ OS: Windows, Linux (Ubuntu, RedHat) |

PrepPilot – AI Placement Preparation Platform

- Developed during Innova Hackathon.
- Built an AI-powered placement preparation platform integrating aptitude practice, interview preparation and career assistance.
- Developed using React and modern web technologies.
